Remarks

This is in response to the Office Action mailed April 20, 2005. As set forth therein, claims 60-93 are allowable. Accordingly, in order to simplify the issues under consideration in this application, Applicants have canceled pending claims 26-39 without prejudice. As a result, only allowable subject matter remains in the application, as original claims 40-48 were withdrawn as part of Applicants' election filed February 3, 2005.

Claim 60 has been formally amended to remove the parenthetical expression, "LED."

The Examiner also pointed out that the application lacked a formal brief summary of the invention and a formal brief description of the drawings. Accordingly, these have been added by way of new paragraphs [0006.1] through [0006.9]. All of these paragraphs find their support in the Detailed Description, and thus do not represent new matter.

All of the other rejections were raised against now-canceled claims 26-39. Accordingly, these grounds of rejection are moot with respect to claims 60-93.

Therefore, Applicants submit that the application is in condition for immediate allowance, and the same is respectfully requested.

Respectfully submitted,

Philip Summa
